

CONTINUING AIRWORTHINESS MANAGEMENT ORGANIZATION (CAMO)

United Eagle CAMO is an approved organization specialized in the airworthiness management of aircraft under EASA Part M subsection G approval. Our CAMO, United Eagle will ensure you perfect control of your asset thanks to an optimized planning of maintenance tasks; continuous monitoring of regulations, Airworthiness Directives (AD), Service Bulletin (SB), and all the necessary elements for the safe use of your aircraft.

Services Offered:

- AMP development and revision
- Scheduled maintenance planning for both line and base
- Technical records administration and storage
- Management of approved modification and repairs
- AD and SB management
- Flight log management
- Lifetime parts control and management
- Subpart G, I Airworthiness review certificate (ARC, extension) for EASA registered aircraft
- MEL development and installation

Support

CAMO provides support for:

- Your relations with maintenance workshops and subcontractors
- The choice of the optional modifications applicable to your aircraft
- The follow-up for modifications that you wish for your aircraft
- The control of costs linked to the maintenance of your fleet
